HANAN Dafny

Brand Snapshot

Hanan Jafry is a luxury traditional womenswear label specializing in bridal and festive wear sharara-gharara sets, kaftans, and heavily embellished silhouettes with mirror work, hand embroidery, and rich jewel-toned fabrics. The brand builds its identity through high-fashion styling and Instagram-first storytelling.

My involvement: complete ownership of the brand's social media presence from content strategy to execution

Role & Scope

→ Content Strategy → Influencer marketing → Photography → Videography → Posting & Scheduling

WHAT I OWNED FOR HANAN JAFRY

- Social media content strategy- planning what to shoot, when to post, and how to position each piece
- Influencer marketing- coordinating influencer features/collaborations for the brand
- Product photography- styled shoots capturing embroidery detail, fabric movement, and silhouette
- Videography & reels- filming and editing short-form content for Instagram
- Social media posting & scheduling- maintaining consistent brand presence

A true end-to-end role from creative direction to final published post.

Product Photography, Styling & Influencer Content

Styled and shot the brand's signature pieces to highlight intricate embroidery, mirror work, and rich color palettes teal, purple, deep green, and soft grey presenting each outfit as wearable luxury rather than a flat product shot. Select pieces were also shot specifically for influencer features, aligning styling with each influencer's personal aesthetic to keep the brand's identity consistent across third-party content.

Reels, Video & Influencer Marketing

Shot and edited a series of short-form videos showcasing outfit movement, styling, and detail work designed for Instagram's reel format to maximize reach and viewer retention. Alongside in-house content, coordinated influencer marketing collaborations from outreach to final content approval extending the brand's visibility through trusted third-party voices.
