Safe & Gentle Ear Piercing

Social Media Strategy, Content & Educational Marketing

Presented By: Zakariya Sayed

BRAND SNAPSHOT

Inverness is a globally trusted ear-piercing system brand part of the Richline Group (a Berkshire Hathaway subsidiary) used in over 70 countries worldwide across jewelry stores, salons, and pharmacies.

Inverness India (a division of Samuel Aaron Trading) brings this heritage of safe, sterile, and gentle piercing to the Indian market, with a social media presence built on trust, education, and safety-first messaging.

My involvement: full ownership of social media strategy and content execution over a short, focused engagement.

ROLE & SCOPE

WHAT I OWNED FOR INVERNESS

- Social media strategy- planning content direction and messaging across platforms
- Reels & ad content- creating short-form video for organic and paid reach
- Testimonial videos- capturing and producing customer trust content
- Product education videos- explaining the Inverness piercing system and its benefits
- Safety & healing guideline content- communicating aftercare and safety information clearly

A strategy to execution role covering both brand trust-building and product education

EDUCATIONAL & SAFETY CONTENT

Created educational content addressing real customer concerns post-piercing positioning Inverness as a knowledgeable, safety-first brand rather than just a product seller.

This kind of content builds trust ahead of purchase decisions

BRAND STORY & POSITIONING

Communicated the brand's 45+ year heritage, medical-grade safety standards, and global trust translating corporate credibility (Berkshire Hathaway-backed, used in 70+ countries) into simple, customer-facing messaging

TESTIMONIAL & PRODUCT EDUCATION VIDEOS

Produced testimonial videos capturing real customer experiences alongside product education content explaining the Inverness piercing system, together building both emotional trust and practical understanding.

Mixed genuine customer reactions with clear breakdowns of sterile, hygienic piercing technology helping hesitant first-time customers see both the proof and the process before purchasing.

Balanced authentic storytelling with informative content, positioning Inverness as a brand that educates as much as it reassures, reducing doubt at the decision-making stage.

REELS & SOCIAL MEDIA MARKETING

Double tap to watch

Shot and edited reels
combined with paid
social media marketing
to expand reach
blending educational
and brand-story
content across organic
and ad placements.

A hand is pointing at a color calibration chart on a desk. In the foreground, a smartphone is visible. The background is a wooden desk with some papers and a pen.

CONTRIBUTION SUMMARY

In a short, focused engagement of under six months, I took full ownership of Inverness's social media strategy and content execution a rare combination of both strategic direction and hands-on production within a single, compact timeline.

The work spanned educational content addressing real customer concerns, brand story pieces translating Inverness's 45+ year global heritage into locally relevant messaging, and testimonial videos that paired genuine customer experiences with clear product education.

Together, this built a trust first content mix for the Indian market one that leaned on the brand's global credibility while staying grounded in practical, safety-focused communication that resonates with first time and cautious customers alike.
